

– List of Cancelled Presentations –
The JSFS 85th Anniversary-Commemorative International Symposium
“Fisheries Science for Future Generations”
September 22 – 24, 2017

Oral Presentation

- SO01-01 Hirokazu Abe, Masami Hamaguchi, Naoto Kajihara, Tatsuma Sato, Takashi Iwasaki, Toshihiro Wada, Takeshi Tomiyama, Toshiyuki Sato, Yuichi Taniai, Akio Oshino, Akihiro Moriyama, Takashi Kamiyama: Impact of the 2011 tsunami on the Manila clam *Ruditapes philippinarum* population and subsequent population dynamics in shallow, semi-enclosed bays in northeastern Japan
- SO02-04 Rizalyn Gonzales, Harold Monteclaro: Effects of net height of crab entangling nets on the capture of targeted economically important portunid species and non-target species
- SO02-08 Mudjekeewis D. Santos: Finding nemo and friends: elucidating fish diversity in the Philippines using DNA barcoding
- SO02-09 Harold M. Monteclaro, Rizalyn P. Gonzales: Reduction of bycatch and undersized crabs in entangling gillnet by modifying mesh size, hanging ratio and net height
- SO02-13 Mulyono S. Baskoro, Roza Yusfiandayani: Efficiency of LED lamps towards the catch on boat liftnet fisheries
- SO02-15 Zhiqiang Han, Xiuliang Wang, Zhiyong Wang, Tianxiang Gao, Takashi Yanagimoto, Yasunori Sakurai, Koji Iida: Physical setting created by ocean currents for assessing the effect of temperature on the genetic pattern of a cold water species Japanese sand lance *Ammodytes personatus*
- SO02-19 Jiraporn Rojtinnakorn, Jaturong Matidtor, Saengtong Pongjareankit, Sudaporn Tongsiri, Krisna R. Torrissen: Efficacy of *Pueraria candollei* extract product to growth physiology and protein fingerprinting in marble goby (*Oxyleotris marmorata*)
- SO03-17 Serapion Tanduyan: The effects of the R.A. 9003 (solid waste management act of the Philippines) on the coastal communities of Camotes Islands, Cebu, Philippines: their diversities, distributions and effects to the aquatic environment
- SO03-20 Wentao Li, Xiumei Zhang, Peidong Zhang: Effects of clam fisheries on seagrass beds in Moon Lake, China
- SO04-03 Gayani Y. Liyanage, Pathmalal M. Manage: Bioremediation of ciprofloxacin (CIP) by isolated CIP resistance bacteria and identification of degradation pathways
- SO04-04 Pathmalal M. Manage, M.G.Y.L. Mahagamage, M.V.S.C. Pathirage: Seasonal variation of pathogenic bacteria in groundwater of the Kelani river basin, Sri Lanka
- SO04-06 Sadupama P. Manage, Gayani Y. Liyanage, Pathmalal M. Manage: Detection of tetracycline and sulfonamide resistance genes in environmental samples
- SO04-10 Rachman Syah, Muhammad C. Undu, Mat Fahrur: Nutrient characteristics and nutrient loading of super-intensive white shrimp (*Litopenaeus vannamei*) ponds effluent

– List of Cancelled Presentations –
The JSFS 85th Anniversary-Commemorative International Symposium
“Fisheries Science for Future Generations”
September 22 – 24, 2017

- SO04-25 Hai Xu, Kun Chen, XuChun Qiu, Yohei Shimasaki, Yuji Oshima: Transcriptome assembly and toxicological analysis in hepatopancreas of pen shell (*Atrina pectinata*) exposed to hypoxia, microplastics and their mixture
- SO06-21 Yulei Chen: The role of matrix metalloproteinase 1 in anti-*Vibrio* immune response of abalone
- SO07-18 Pathmalal M. Manage, Gayani Y. Liyanage: Detection of tetracycline resistance genes in isolated bacteria from aquaculture sites in Sri Lanka
- SO07-23 Feroz Shah, Masood Balkhi: Impact of parasitic diseases on fishes of north west Himalayan streams of India
- SO07-30 Sutanti Sutanti, Sugiyo Hadi Pranoto, Ratu Siti Aliah: Screening of bacteria from salina tilapia (*Oreochromis niloticus*) cultured in floating net cages in Indonesian marine waters
- SO07-45 Ma'ruf Kasim, Ahmad Mustafa, Idul Male, Muzuni, Wardha Jalil: Floating raft nets on cultivation of *Eucheuma denticulatum* and *Kappaphycus alvarezii* in Indonesia
- SO07-48 Linsong Dong, Shijun Xiao, Zhiyong Wang: The application of genomic selection in the genetic improvement of economic traits in the large yellow croaker (*Larimichthys crocea*)
- SO09-18 Asda Laining, Ike Trismawanti, Usman, Kamaruddin: Carotenoid-enriched diet fed since pre-maturation stage enhanced gonadal maturation and biochemical properties in several tissues of pond reared black tiger shrimp (*Penaeus monodon*)
- SO09-21 Gabriel G. Bake, Olamide O. Aibuki, Ahmed Kpotun, Adam Abdullahi, Masato Endo, Yutaka Haga: Evaluation of cooked sword bean seed (*Canavalia gladiata*) meal inclusion in the practical diet of heteroclaris fingerlings
- SO10-06 Liang Song, Yue Ding, Yue Tang, Jingyu Tian, Jing Zhang, Dayong Zhou, Beiwei Zhu: Calcium signals regulated apoptosis induction is involved in UVA-induced sea cucumber *Stichopus japonicas* autolysis
- SO10-17 Le Chang Sun, Yi Chen Lin, Zhong Chan, Ling Weng, Guang Ming Liu, Wu Yin Weng, Min Jie Cao: Study on the mechanism of serine proteinase induced modori phenomenon in ISP protein isolate from blue scad (*Decapterus maruadsi*)
- SO10-22 Ying Lu, Tianjiao Huang, Xiao Yuan, Xin Lin, Hideki Ushio: Effect of sterilization treatment on tropomyosin, a shellfish major allergen
- SO10-52 Weiqing Lan, Qian Wang, Xiao-hong Sun, Xiao-hui Yang, Jing Xie: Effects of temperature fluctuation on the quality and microbial diversity of large yellow croaker (*Pseudosciaena crocea*) with ice during logistic process
- SO11-05 Weiqing Lan, Qian Wang, Xiaohong Sun, Jing Xie: Antimicrobial mechanism of *Ginkgo biloba* leaves extracts (GBLE) against *Shewanella putrefaciens*

– List of Cancelled Presentations –
The JSFS 85th Anniversary-Commemorative International Symposium
“Fisheries Science for Future Generations”
September 22 – 24, 2017

- SO11-06 Weiqing Lan, Wanjun Zhang, Qiyue Wu, Jing Xie: Different precooling strategies on the freshness of farmed perch (*Lateolabrax japonicus*) during logistics process
- SO12-10 Zedong Jiang, Hui Ni, Yanbing Zhu, Lijun Li, Huinong Cai: Preparation and characterization of a novel polysaccharide from red seaweed *Bangia fusco-purpurea* with its inhibitory effects on carbohydrate-digestion enzymes
- SO12-17 Tiantian Wu, Yaqin Hu: Formation and characterization of nano/micro particles based on chitosan and alginate for biomaterial delivery
- SO13-03 Yuan Chai, Shuolin Huang: Study on the international economic effects of the subsidies on fisheries and the export aquatic products in “One Road and One Belt” area
- SO13-24 Ting-Chun Liao, Chung-Ling Chen: Establishing an integrated information network of leisure fisheries in Taiwan

Poster Presentation

- SP03-01 Chengye Hu, Yuyue Shui, Kuo Tian, Chuncao Zhang, Hulin Qin, Mengmeng Ji, Bonian Shui: Community diversity of macrobenthos in different habitats of Shupaisha Wetland in Oujiang river estuary
- SP03-11 Peidong Zhang, Wentao Li, Xiumei Zhang: The seagrass resources and restoration along the coasts of Shandong Peninsula, China
- SP04-12 Nadeeka Thushari Gajahin Gamage, Duminda Mahesh Jayan Senevirathna, Amaratne Yakupitiyage, Suchana Chavanich: Preliminary investigation on effect of plastic pollution on intertidal rock oysters – *Saccostrea cucullata* in selected beaches of Chonburi province, Gulf of Thailand
- SP07-64 Feroz Shah, Iqbal Mir, Masood Balkhi: Molecular characterization of *Aeromonas hydrophilla* using fragments of aerolysin and haemolysin genes collected from fishes of western Himalayas
- SP07-65 Gayani Y. Liyanage, Pathmalal M. Manage: Determination of multiple antibiotic resistant and multiple antibiotic resistance index in bacteria isolated from aquaculture farms
- SP09-08 Asda Laining, Agus Nawang, Akhmad Mustafa: Influence of squid liver meal as the major protein source in prematuration diet on growth and gonadal amino acid content of rabbitfish, *Siganus guttatus*
- SP09-11 Gabriel G. Bake, Josephine E. Sani, Desmond C. Nwangw, Masato Endo, Yutaka Haga, Shuichi Satoh: Growth performance and nutrient utilization of hybrid catfish (*Heteroclaris*) fed variegated grasshopper me

– List of Cancelled Presentations –
The JSFS 85th Anniversary-Commemorative International Symposium
“Fisheries Science for Future Generations”
September 22 – 24, 2017

- SP10-19 Wuyin Weng, Peixiao Wei, Yanjun Ye: Characterization and antioxidant properties of abalone viscera hydrolysates fractionated by ultrafiltration
- SP10-31 Wenzheng Shi, Cuicui Kang, Xichang Wang: Effects of different freezing methods on the volatile components of grass carp meat
- SP10-33 Siqi Wang, Mingqian Tan, Beiwei Zhu: The influence of drying processes on dynamics of water mobility and distribution in Sur clam access LF-NMR
- SP10-36 Fawen Yin, Dayong Zhou: The forms of fluoride in Antarctic krill (*Euphausia superba*) oil extracted with hexane and its removal with different absorbents
- SP11-05 Xiuxia Duan, Wenzheng Shi, Nan Xu, Zhihe Wang, Bing Fang: Effects of cooking on the flavor quality of white shrimp
- SP12-01 Bor-Chyuan Su, Han-Ning Huang, Jyh-Yih Chen: Epinecidin-1 protects mice from LPS-induced endotoxemia and cecal ligation and puncture-induced polymicrobial sep
- SP12-02 Huang Han-Ning, Pan Chieh-Yu, Wu Hung-Yi, Chen Jyh-Yih: Antimicrobial peptide epinecidin-1 promote complete skin regeneration of methicillin-resistant *Staphylococcus aureus* infected burn wound in swine models
- SP12-16 Xiao-ming Qin, Geng-xin Hao, Chao-hua Zhang, Wen-hong Ca: Anti-fatigue effect in mice of protein hydrolysate from oyster *Ostrea plicatula* Gmelin
- SP13-07 Serapion Tanduyan: Anthropogenic activities and waste disposal practices in the ports and fish landing areas of Camotes Islands, Cebu, Philippines
- SP13-11 Xu Tao, Yi Tang: Research of overall planning of land and sea in Chinese coastal areas
- SP13-12 Wisnu Sujatmiko, Ratu Siti Aliah, Deddy Yaniharto, Suhendar I. Sachoemar: Present status seaweed cultivation and prospect application of Sato Umi concept in Indonesia
- SP13-13 Leovigildo Rey Alaban, Nora Suerte, Elena Bontia, Quin Clarito: Coastal resource user’s profile of Islas de Gigantes, central Philippines
